Gage Brothers Announces New President and Chairman of the Board

Sioux Falls, SD

Gage Brothers is pleased to announce the promotion of Joe Bunkers to President and Chairman of the Board.

Joe has been with Gage Brothers for 21 years, where he has held positions in drafting, quality control, sales, and operations. Bunkers has proven himself to be a highly knowledgeable and committed company advocate. Along with being the Chair of the Architectural Services Committee, Vice Chairs on both PCI's Marketing Communications Committee and Architectural Certification Committee, Joe has completed Leadership PCI and has earned his Business Degree from USD.

Though the death of former President Tom Kelley was untimely, Tom made sure that Joe and the Gage Brothers team was prepared and ready for this transition. With the recent move to the new facility, Gage Brothers is discovering all that this new environment can do with improved speed, efficiency, and competitive pricing.

To our wonderful customers and partners, thank you for your continued support. Our relationship with you is our most important focus. Please connect with Joe Bunkers and the team at Gage Brothers by visiting us online at gagebrothers.com.

About Gage Brothers:

The company, headquartered in Sioux Falls, South Dakota, can trace its roots back to 1915. Gage Brothers continues to build on our proud tradition as being a leading manufacturer of innovative architectural and structural concrete products. We pride ourselves on making decisions that stand the test of time and creating relationships that last. We work with the mindset of one team, one goal.
