

# Thanks!

## THANK YOU TO REVIEWERS

In the first issue of each year we thank the volunteers who are responsible for maintaining the integrity and quality of the peer-reviewed papers published in *PCI Journal*. They are selected from the rosters of relevant PCI or ACI committees, our author database, and the references of the manuscripts we ask them to review. Many active members of PCI, as well as other knowledgeable people from around the world, participate in this vital service to the industry. To encourage objectivity and free expression, reviewers of *PCI Journal* manuscripts are anonymous to the authors and to one another. They spend hours on top of their regular jobs evaluating in detail the merits of the unedited manuscripts we send to them, giving all of us the benefit of their specialized expertise. Our heartfelt thanks to everyone who did so in 2014.
