### Liu, Noble of Finley now licensed professional engineers

Ivan Liu

Ivan Liu and Patrick Noble of Finley Engineering Group recently became licensed professional engineers.

Liu works as a bridge designer in Finley's Tallahassee, Fla., office. He is working on the Ironton-Russell cable-stayed bridge between Ohio and Kentucky and the precast concrete segmental approaches for the Bayonne Bridge Navigational Clearance Program in New York and New Jersey. Liu has a master's degree in structural engineering from Texas A&M University.

Patrick Noble

Noble is also a bridge designer in Finley's Tallahassee office. He is working on the SR 40 Ocklawaha Bridge replacement design-build project in Marion County, Fla. This project includes the construction of new 2732 ft (833 m) long twin bridges with 21 spans up to 140 ft (43 m) long that carry two lanes of traffic in each direction over the Ocklawaha River. Noble, too, has a master's degree in structural engineering from Texas A&M University.

### Freeman promoted to Tindall VP, general manager in Mississippi

Mac Freeman

Tindall has promoted Mac Freeman to vice president and general manager of its Mississippi division. Freeman will be filling the position previously occupied by Jeff Woodruff, who announced his retirement for the end of 2016 but will remain with Tindall in the role of vice president of engineering until that time.

Freeman joined Tindall in 2004 and previously served as a project manager, sales engineer, and sales manager. His duties have included everything from engineering and construction management to sales and marketing. The governor of Mississippi once proclaimed a "Mac Freeman Week" for his work in business development. Freeman holds both a BS and MS in civil engineering.

Woodruff joined Tindall in 1986 and has managed the functional areas of engineering and project management for several of the company's divisions. He held the position of vice president and general manager for the Mississippi division since 2004 and will be supporting the Mississippi division by serving as the engineering manager as he transitions into retirement.

## TONY MAZZEO

Tony J. Mazzeo, former PCI board member, died December 5, 2015. He was 70.

Mazzeo was president of Oldcastle Precast Building Systems division and retired in 2007 after 20 years there. In an Oldcastle newsletter article announcing Mazzeo's retirement, colleagues listed some of his accomplishments. Mazzeo was commended for record performance and growth throughout the late 1990s that culminated in record sales and profits for the Bethlehem, Pa., plant in 2000. As chief operating officer for the Building Systems division, he successfully combined the former Spancrete operations at South Bethlehem, N.Y., and Manchester, N.Y., with the former Strescon operations at Morrisville, Pa., and Baltimore, Md., and the Hatfield, Pa., prestress product facility.

Mazzeo was a member of the PCI Board of Directors in 2001 and 2002. He was also chair of the Housing Market Team from 1999 to 2001 and a member of the Budget Planning and Review Team, the Hollow Core Slab Producers Committee, the Productivity Committee, and the Soundwall Committee.
