

GUIDE TO NAVIGATING COURSE

- After selecting course, your start page is the “Status Page”
- Click through all “Course Content” and “Resources” to explore all that the course has to offer.

The screenshot displays the PCI Learning website interface. At the top, the PCI logo and name 'Precast/Prestressed Concrete Institute' are visible, along with navigation links for Home, Contact Us, Search, and Help. The main content area is divided into a left sidebar and a main right section. The sidebar includes a 'Welcome, Dave Anians' message, a list of navigation options (PCI Courses, My PCI Courses, Profile, Log Off), and two main sections: 'Course Content' and 'Resources'. The 'Course Content' section is highlighted with a blue arrow pointing to 'Status Page', which is also indicated by a callout box on the left that says 'You are here:'. The 'Resources' section lists various reports and design details. The main right section is titled '2.2 Design and Detailing' and shows a list of course items with their status (Viewed or Not Viewed) and titles. Below this list, a bolded instruction reads: 'Please complete course material to receive a completion certificate.'
