

### PCI Continuing Education

PCI is a registered continuing education provider with the American Institute of Architects (AIA), the National Council of Examiners of Engineers and Surveyors (NCEES), and the U.S. Green Building Council (USGBC). PCI's educational offerings include a variety of programs to fit your schedule and preferred learning environment, such as webinars, seminars, lunch-and-learns, and online education. To learn more, visit [www.pci.org/education](http://www.pci.org/education).

### Distance Learning Opportunities

#### Webinars

PCI webinars are presented live each month by industry experts on a variety of topics from design and construction to sustainability and more. All webinars are FREE, one hour long, and scheduled to start at noon in each time zone in the contiguous United States. Webinars provide an inexpensive way to stay up to date on new materials, products, concepts, and more while earning continuing education credits. Visit [www.pci.org/webinars](http://www.pci.org/webinars) for the full webinar schedule and registration information.

#### Upcoming Webinars:

- **Precast Concrete: Helping You Build Sustainably on Campus**  
August 23 and 25, 2011

#### PCI eLearning Center

The PCI eLearning Center is the first education management system dedicated to the precast concrete structures industry. This free 24-hour online resource provides an opportunity for architects and engineers to earn continuing education credits on demand. Each course includes a webinar presentation recording, reference materials, and a quiz. Visit this new resource at [www.pci.org/elearning](http://www.pci.org/elearning).

### In-Person Learning Opportunities

#### Seminars

PCI and its regional affiliates offer seminars all over the United States on a variety of topics. Visit [www.pci.org/education](http://www.pci.org/education) for up-to-date seminar listings, additional information, and registration.

#### Lunch-and-Learns

PCI's lunch-and-learn/box-lunch programs are a convenient way for architects, engineers, and design professionals to receive continuing education credit without leaving the office. Industry experts visit your location; provide lunch; and present on topics such as sustainability, institutional construction, parking structures, aesthetics, blast resistance, the basics of precast, and many more. Visit [www.pci.org/education/box\\_lunches](http://www.pci.org/education/box_lunches) for a list of lunch-and-learn offerings and to submit a program request.
