

PCI Continuing Education

PCI is a registered continuing education provider with the American Institute of Architects (AIA), the National Council of Examiners for Engineering and Surveying (NCEES), and the U.S. Green Building Council (USGBC). PCI's educational offerings include a variety of programs to fit your schedule and preferred learning environment, such as webinars, seminars, lunch-and-learns, and online education. To learn more, visit www.pci.org/education.

Electronic Learning Opportunities

Webinars

PCI webinars are presented live each month by industry experts on a variety of topics from design and construction to sustainability and more. All webinars are FREE, one hour long, and scheduled to start at noon in each time zone in the contiguous United States. Webinars provide an inexpensive way to stay up to date on new materials, products, concepts, and more while earning continuing education credits. Visit www.pci.org/webinars for the full webinar schedule and registration information.

Upcoming Webinars:

- **Designing Building Envelopes to Meet Sustainable and Aesthetic Goals** (part two of a two-part series)
February 15 and 17, 2011
- **The International Green Construction Code: A Preview**
March 29 and 31, 2011

PCI e-Learning Center

The new PCI e-Learning Center will provide 24-hour access to continuing education. Simply select a course of interest, watch the presentation, and complete the exam to qualify for continuing education credits. Most courses are free. The PCI e-Learning Center will go live in the first quarter of 2011.

In-Person Learning Opportunities

Seminars

PCI and its regional affiliates offer seminars all over the United States on a variety of topics. Visit www.pci.org/education for up-to-date seminar listings, additional information, and registration.

CCA, March 31, 2011, Nashville, Tenn.
- **Precast Parking Design Techniques and History**, presented by PCI of Illinois and Wisconsin, www.pci-iw.org/index.cfm/education/technology
March 1, 2011, Chicago, Ill.

Lunch-and-Learns

PCI's lunch-and-learn/box-lunch programs are a convenient way for architects, engineers, and design professionals to receive continuing education credit without leaving the office. Industry experts visit your location; provide lunch; and present on topics such as sustainability, institutional construction, parking structures, aesthetics, blast resistance, the basics of precast, and many more. Visit www.pci.org/education/box_lunches for a list of lunch-and-learn offerings and to submit a program request.
