

PCI Continuing Education

PCI is a registered continuing education provider with the American Institute of Architects (AIA), and the National Council of Examiners of Engineers and Surveyors (NCEES). PCI also has registered programs with the Green Building Certification Institute (GBCI). PCI's educational offerings include a variety of programs to fit your schedule and preferred learning environment, such as webinars, seminars, lunch-and-learns, and online education. To learn more, visit www.pci.org/education.

Distance Learning Opportunities

Webinars

PCI webinars are presented live each month by industry experts on a variety of topics from design and construction to sustainability and more. All webinars are FREE, one-hour long and presented twice during the webinar week, at noon Pacific (3:00 p.m. Eastern) and noon Eastern. Webinars provide an inexpensive way to stay up to date on new materials, products, concepts, and more while earning continuing education credits. Visit www.pci.org/webinars for the full webinar schedule and registration information.

Upcoming Webinars:

- **High Performance Essentials: Energy Modeling & Envelope Commissioning**

Presenter: TBD

Level: 2 - intermediate

Nov. 18, 20 (Commissioning)

To design and build high-performance buildings we must have reliable approaches to energy modeling

to predict future performance and guide design decisions. High-performance buildings must also actually perform. Hence building commissioning is becoming more important in order to confirm construction and performance. This presentation will discuss what energy modeling and envelope commissioning are and their role in construction.

PCI eLearning Center

The PCI eLearning Center is the first education management system dedicated to the precast concrete structures industry. This free 24-hour online resource provides an opportunity for architects and engineers to earn continuing education credits on demand. Each course includes a webinar presentation recording, reference materials, and a quiz. Visit this new resource at www.pci.org/elearning.

In-Person Learning Opportunities

Seminars and Workshops

PCI and its regional affiliates offer seminars and workshops all over the United States on a variety of topics. Visit www.pci.org/education for up-to-date seminar listings, additional information, and registration.

Upcoming Seminars and Workshops:

- **Productivity Improvement in Lean Times for Precast and Stressed Products**

October 7 - 10, Harrisburg, Pa.

- **Quality Control Schools**

Level I/II

November 17-19,
Nashville, Tenn.

Level III

November 19-22,
Nashville, Tenn.

- **CFA/IES**

November 17-19, Nashville, Tenn.

- **CCA**

November 20, Nashville, Tenn.

Additional courses will take place at World of Concrete in Las Vegas, February 2-6

- Plant Quality Control School, Level I/II
- Field Quality Control School, CFA and CCA
- PCI Zones 1 & 2 meeting

- PCI's Presentation: "Quality Assurance - Your Lifeline to a Better Project"
Tuesday, February 2, 2015
8:30 a.m. - 10:00 a.m.

Lunch-and-Learns

PCI's lunch-and-learn/box-lunch programs are a convenient way for architects, engineers, and design professionals to receive continuing education credit without leaving the office. Industry experts visit your location; provide lunch; and present on topics such as sustainability, institutional construction, parking structures, aesthetics, blast resistance, the basics of precast, and many more. Visit www.pci.org/education/box_lunches for a list of lunch-and-learn offerings and to submit a program request.

Sales and Marketing School

PCI is pleased to announce the return of the Sales and Marketing School. This event is perfect for all members of your sales, marketing, and project delivery teams, regardless of their experience. The workshop is scheduled for November 12-14, 2014, in Denver, Colo., and will include sessions to ensure your team is attracting potential customers, capitalizing on leads, and increasing sales.
