

PCI Continuing Education

PCI is a registered continuing education provider with the American Institute of Architects (AIA), and the National Council of Examiners of Engineers and Surveyors (NCEES). PCI also has registered programs with the Green Building Certification Institute (GBCI). PCI's educational offerings include a variety of programs to fit your schedule and preferred learning environment, such as webinars, seminars, lunch-and-learns, and online education. To learn more, visit www.pci.org/education.

Distance Learning Opportunities

Webinars

PCI webinars are presented live each month by industry experts on a variety of topics from design and construction to sustainability and more. All webinars are FREE, one-hour long and presented twice during the webinar week, at noon Pacific (3:00 p.m. Eastern) and noon Eastern. Webinars provide an inexpensive way to stay up to date on new materials, products, concepts, and more while earning continuing education credits. Visit www.pci.org/webinars for the full webinar schedule and registration information.

Upcoming Webinars

July 21 and 23: Designing High Performance Precast Concrete Parking Structures—Parking structures have changed a lot over the past decade. Today's parking structures have to be built sustainably, reduce operational and maintenance costs, last longer, and have more stringent aesthetic requirements. In many cases, they have to be high performance structures exceeding standard expectations. This presentation will explain what a high performance parking structure is, as well as how to design and build them utilizing high performance precast concrete. The latest innovations and design methodologies, including connections, proper detailing, and maintenance will be discussed.

PCI eLearning Center

The PCI eLearning Center is the first education management system dedicated to the precast concrete structures industry. This free 24-hour online resource provides an opportunity for architects and engineers to earn continuing education credits on demand. Each course includes a webinar presentation recording, reference materials, and a quiz. Visit this resource at www.pci.org/elearning.

In-Person Learning Opportunities

Seminars and Workshops

PCI and its regional affiliates offer seminars and workshops all over the United States on a variety of topics. Visit www.pci.org/education for up-to-date seminar listings, additional information, and registration.

Upcoming Seminars and Workshops:

Quality Control Schools

Level I/II

August 3-5
Denver Colo.

September 1-3
Chicago, Ill.

Level III

August 31-September 3
Chicago, Ill.

Visit www.pci.org/schools for more information and to register.

Lunch-and-Learns

PCI's lunch-and-learn/box-lunch programs are a convenient way for architects, engineers, and design professionals to receive continuing education credit without leaving the office. Industry experts visit your location; provide lunch; and present on topics such as sustainability, institutional construction, parking structures, aesthetics, blast resistance, the basics of precast, and many more. Visit www.pci.org/education/box_lunches for a list of lunch-and-learn offerings and to submit a program request.

PCI Online Academy

Continuing its drive toward the design and construction of high-performance structures, PCI wants to ensure that professionals have a full understanding and knowledge of high-performance precast concrete and its benefits, applications, and design methodologies. After a successful initial course, PCI is bringing back *Basic Prestressed Concrete Design*, this fall. Classes will run for six weeks on Wednesday evenings from 7:00 - 8:30 p.m. EST starting September 23, 2015.

This course is intended for Licensed Engineers, EITs, Professors, and Graduate and Undergraduate Students. Nine PDHs will be awarded at the conclusion of the course. For more information and to register visit www.pci.org/online-academy.
