Errata sought for IBC, ANSI publications

With the release of the 2021 *International Building Code*, errata are currently being compiled. S. K. Ghosh Associates recently published the blog post “An Error in 2021 IBC Chapter 19,” concerning chapter 19 references to sections in *Building Code Requirements for Structural Concrete (ACI 318-19)* and *Commentary (ACI 318R-19)*. The post is available at <https://www.skghoshassociates.com/blog/an-error-in-2021-ibc-chapter-19/>.

In addition, an erratum for American National Standards Institute (ANSI)/PCI 128-19, *Specification for the Design of Glass-Fiber-Reinforced Concrete Panels*, has been submitted. In section 1903.3, “PCI MNL 128 standard” is contained in the body of the code. It is referenced correctly in chapter 35, “Referenced Standards,” as “PCI 128-19.” The proposed erratum will remove “MNL” to be consistent with the chapter 35 reference.

Errata for International Code Council codes may be submitted and viewed at <https://www.iccsafe.org/errata-central/>. Please contact standards@pci.org with any questions.
