

The companies listed in this guide supported *PCI Journal* during 2021. Each produces a high-quality product or service worthy of your consideration. We appreciate our advertisers' support and the significant contributions they make to the industry.

Whenever an opportunity arises, please contact *PCI Journal* advertisers for more information.

## Concrete Accessories

 <p>Concrete Product Solutions</p> <p>conacweb.com</p>	<p>For decades, <b>CONAC</b> has been serving our customers with innovative products and superb customer service. We're proud of our part in the industry and dedicated to continuing our tradition of excellence. Stay tuned for our new products at <a href="http://www.conacweb.com">www.conacweb.com</a>.</p>	<p>Michael Azarin 800-336-2598 sales@conacweb.com</p>
 <p>high.net</p>	<p>High Concrete Accessories supplies prefabricated, noncorrosive, and nonreactive void-forming embedments that save time and money through process efficiency, as well as aesthetic closure caps for lifting anchors and bolt connections. Check us out online or give us a call today.</p>	<p>Scott Lichtenwalner 717-336-9471 slichtenwalner@high.net</p>
 <p>prestressupply.com</p>	<p><b>Prestress Supply</b> is family owned and operated and has been supplying quality products and service to the prestressed/precast concrete industry for over 50 years. PSI is the expert for your stressing and strand chuck needs.</p>	<p>Bruce Hartup 863-683-4492 sales@psilakeland.com</p>

## Concrete Admixtures

 <p>master-builders-solutions.com/en-us</p>	<p><b>Master Builders Solutions</b> is a global brand of admixtures, fibers, and construction materials helping precast/prestressed producers to innovate and meet their challenges, including reducing operating costs, improving plant efficiency, and enhancing finished products.</p>	<p>Jason Pitcole 216-839-7360 jason.pitcole@mbcc-group.com</p>
 <p>gcpat.com</p>	<p><b>GCP</b> provides a full line of innovative products and technologies for the precast/ prestressed concrete industry. The GCP portfolio includes chemical admixtures, fibers, unique technologies, and architectural products such as the PIERI® in-form surface retarders that improve the production process and enhance the finish of architectural precast concrete.</p>	<p>Brian Miller 617-498-4474 brian.d.miller@gcpat.com</p>
 <p>usa.sika.com</p>	<p><b>Sika Corporation</b> is a global construction technology leader, with over 100 years of experience in producing high-quality, innovative admixtures for the precast/prestressed concrete market. Sika offers a complete range of admixtures, including water reducers, accelerators, fibers, and finishing aids. With industry-leading customer support, product quality, and consistency, Sika is the preferred partner to have. Please contact us to learn more.</p>	<p>Heidi Helmink 678-332-9147 helmink.heidi@us.sika.com</p>

## Connectors

 <p>theadvanconn.com</p>	<p>The <b>AdvanConn</b>® PC-10 is an innovative connection device for precast concrete wall panels to foundations that eliminates field welding. Field-tested and patented, it installs in minutes. The PC-10 satisfies ACI code requirements to provide a minimum 10,000 pounds tension connection.</p>	<p>Bob Foley 937-689-7725 bob@theadvanconn.com</p>
 <p>jvi-inc.com</p>	<p>YOUR "CONNECTION" CONNECTION. <b>JVI</b> provides bearing pads, slide bearing pads, slide bearings, plastic shims, shear and alignment connectors, slotted insert systems, invisible connections, and gourmet cooking.</p>	<p>Jim Voss 847-675-1560 info@jvi-inc.com</p>

## Custom-Built Forms

 <p>sylvan-products.com/precast</p>	<p>Since 1990, <b>Sylvan</b> has been a coast-to-coast supplier in the USA and Canada of form systems, magnets, side rails, bulkheads, prestressed header forms, plastic chamfer, wood chamfer, magnetic steel chamfer, plastic reveal, composite reveal, block-out forms, bridge-deck header forms, double-sided tape, and more.</p>	<p>Bryan White 800-842-1990 ext. 3930 bwhite@sylvan-products.com</p>
 <p>tuckerbilt.com</p>	<p>Designer and manufacturer of the T-630 Concrete Transporter, <b>Tucker's Machine &amp; Steel Service</b> also manufactures custom forms and other equipment for the prestressed industry around the world. Put our 40 years of experience to work on your next project.</p>	<p>Bob Louder 352-787-3157 boblouder@tuckerbilt.com</p>

## Form Release Agents

**Cresset Chemical Company** is a leading supplier of quality, eco-friendly form release agents, form and equipment treatments, cures and seals, hand cleaners, and associated products for concrete. We're proud to be the preferred brand among architectural concrete producers since 1946.

Mike Baty  
800-367-2020  
mike@cresset.com

## Forms and Plant Equipment

**Elematic** is the leading supplier of precast concrete technology worldwide. We supply everything from a single machine to production lines and complete precast plants. Matching these elements to your needs brings lifetime results.

Matt Cherba  
262-798-9777  
matt.cherba@elematic-inc.com

hamiltonform.com

It's all we do—since 1967, and only for the precast/prestressed concrete industry. **Hamilton Form Company** built your trust, and our reputation, on producing custom steel forms and plant production equipment. Would you like to see the innovative structures built using our forms? [www.hamiltonform.com](http://www.hamiltonform.com)

Bob Mills  
Director of Sales & Marketing  
817-590-2111  
bobmills@hamiltonform.com

ratec.org

We produce magnetic and nonmagnetic forms and forming systems for wall panels and a variety of other precast concrete elements. Whether you're looking for an individual solution or a complete plant design and implementation, we are the team that fits your company's needs.

Tim Reymann  
727-363-7732 ext. 104  
TReymann@ratec.org

Edge.ptac.com

EDGE® is the software solution that the precast concrete industry has been in search of for quite some time. Utilizing the world's most preeminent graphics software, EDGE can be implemented for more seamless collaboration across multiple disciplines. More than just drafting and design, EDGE platform provides a connected workflow from estimating to erection. With EDGE<sup>ERP</sup>, EDGE<sup>Cloud</sup>, and EDGE<sup>CAM</sup>, our users can optimize all facets of their business.

Jordan Watkins, PE  
251-340-2473  
jwatkins@ptac.com

voellermixers.com

Over the past 50+ years, **Voeller Mixers** has been manufacturing quality mixing, batching, and aggregate heating equipment for the concrete products industry. **Made in the USA**—ensuring quality equipment and prompt service. Voeller will tailor a complete batching solution to handle all your production needs.

Joe Fisher  
National Sales Manager  
262-235-9465  
joe.fisher@voellermixers.com

## Precast Design Software

allplan.com

**ALLPLAN** is a leading vendor of open building information modeling (BIM) solutions for structural, civil, and precast engineers, rebar detailers, and BIM managers. Our software manages the full BIM workflow for precast concrete design and reinforcement.

Donnie Henry  
610-379-2711  
dhenry@allplan.com

## Safety Solutions

optimumsafetymanagement.com

**Optimum** provides proven safety management solutions to strengthen your company's safety culture and profitability. Whether on-site or online, Optimum's team of safety professionals and support staff **are committed to securing your safety along with the safety and health of hundreds of thousands of workers** across North America.

Tom Bandura  
630-759-9908 ext. 214  
tbandura@optimum-usa.com

## Structural Engineering

cegengineers.com

**CEG** is recognized as a leader in precast concrete specialty engineering. CEG provides services to precast concrete producers and their associations.

Jeff Carlson  
847-255-5200  
JeffCarlson@CEGengineers.com

midweststructure.com

Since 1990, **MSE** has been providing engineering services to the precast concrete industry throughout the United States and Canada. Our services include preconstruction design, engineering, drafting, and design-build consulting. Models and drawings are 100% in Autodesk Revit.

414-546-9284

## Thin Brick

endicott.com

**Endicott** thin brick is a perfect fit for any precast concrete job. State-of-the-art manufacturing techniques allow Endicott thin brick to adhere to the tightest PCI tolerances, and still provide an outstanding architectural color selection. Contact us to learn more.

Dean Schmidt  
402-729-3315  
dschmidt@endicott.com

metrothinbrick.com

**METROBRICK®** meets the PCI standards for thin brick. METROBRICK offers a wide range of colors, sizes, and finishes. Custom blending is available as well as a full line of products—Fast Ship—in stock. When thinking brick precast—think METROBRICK.
