Wells promotes Egloff to director of sealants, restoration, Mountain States

Wells has promoted of Ana Egloff to Mountain States director of sealants and restoration. In her new role, she leads regional strategy, team development, and market positioning for Wells sealants and restoration services. She will work alongside regional leadership, sales, and operations teams to expand awareness of these services while reinforcing the organization's reputation for quality, reliability, and efficient solutions.

Ana Egloff

Egloff joined Wells in November 2024 as a regional facades manager. With more than 20 years of experience in the design and construction industry, including 12 years working with prefabricated building systems, Egloff brings leadership experience spanning architecture, project management, and executive operations.

Egloff holds a bachelor's degree in fine arts and architecture and a master's degree in architecture and business administration.
